SPECIAL *New York City* EDITION!

This entire newsletter concerns our proposed spring trip to New York City and the New York Academy of Medicine.

Page two details our three travel choices. Since **a minimum of 36 people need to sign up, or the trip will be cancelled**, *we would appreciate knowing your intentions to go (or not to go!) as soon as possible*:

1. When you receive this, please read the back at your earliest convenience.
2. Fill out the box on the top of the next page, then email or fax the information to Kris Kalina (see form on page 2 for contact info) by Friday, February 4th. If the form is not received, you will be called to confirm your interest/lack of interest.
3. The Committee will determine by Friday, February 11th, whether the trip is feasible. Interested parties will be contacted regarding payment details.

- ❖ **Think of this trip as a mini-vacation with (or without!) your significant other** (*OK, so taking a DocLine class isn't exactly spending a day at the beach, but the trip is a reasonable way to get to the Big Apple*)
- ❖ **Check to see if your employer can subsidize it – it's less expensive than this year's MLA conference**
